Sick-poison is a poison which makes you sick. It comes from the stomach. The stomach makes it out of undigested food.

The blood gets it and taints the whole body with it. That's the way of it. The way to be rid of it is to look after your digestion.

If your food is all properly digested, there will be none left in the stomach to make sick-poison out of.

If your stomach is too weak to see to this properly by itself, help it along with a few doses of Shaker Digestive Cordial.

That's the cure of it.

Shaker Digestive Cordial is a delicious, healthful, tonic cordial, made of pure medicinal plants, herbs and wine.

It positively cures indigestion and prevents the formation of sick-poison.

About four hundred happy excursionists took advantage of the Methodist Sunday school picnic to Lanark last Friday. The day was very pleasant, and the picnic was a success in every way. Arriving at Lanark the young folks made a rush for the water, which from then to leaving time was a source of unending pleasure. Bathing, boating, fishing filled up the day, and as no mishap of any kind occurred to mar the pleasure of the occasion, it was a happy, joyous and thoroughly pleased crowd that returned home in the evening. The train arrived here about 7:30, in good time for the youngsters to go to bed, much to the relief of the tired mothers. The managers of the picnic deserve much praise for the thorough arrangements they made for the pleasure of their guests.
